OIL MEN ASSAIL BORAH LETTER

Deny Interference With Policy in Mexico

Senator Asked to Name His Authorities

Statements Held Unqualified by Producers

NEW YORK, March 11. (AP)—Senator Borah was called upon in a letter today from Guy Stevens, director of the Association of Producers of Petroleum in Mexico, to reveal the identity of "powerful interests" and "a distinguished representative of the oil interests" whom the Senator inferred, in a letter made public yesterday, would like to see a complete break with Mexico, and "to see Mexico Cubinized."

Mr. Stevens' communication also contains a purpose to obscure the real issue in the Mexican oil controversy, and the letter included a clipping in which Senator Borah had been quoted as saying that he was "inclined to doubt some of the statements made by the oil companies in New York."

The request was made of you, Mr. Stevens said, referring to a letter written to the Senator on the 4th inst. "that you specify such statements, and indicate if you have any upon which such a doubt can be predicted."

NONE SPECIFIED

"Unfortunately you have not seen fit to specify either the facts or any statements. On the contrary, you have imputed to 'powerful interests' and 'a distinguished representative of the oil interests' likewise unnamed, a desire to see Mexico Cubinized, and to 'a distinguished representative of the oil interests' likewise unnamed, a desire to see Mexico Cubinized."

Such charges as these, though largely irrelevant, have a tendency, as well as perhaps a purpose, to obscure the real issue, which is the confiscation of American-owned properties in Mexico.

TOUCHED HEART

"To us it has seemed that you recently touched the heart of a matter when you said that 'international relations should be guided by the standards of honor and decency which we have come to recognize as between individuals.' If Mexico could be induced to apply that standard to the present situation, there would be by far the best solution."

In conclusion, may I point out that my previous letter contained no criticism of your action in applying direct to President Calles for data. That you should have obtained any such impression must have been due to criticism from other quarters, with which the receipt of my letter was merely coincidental."

KLING WELCOMED BY BRAZIL BRITONS

SAO PAULO (Brazil) March 11. (AP)—Rudyard Kipling was welcomed by the British colony when he arrived here yesterday for a brief stay in this section of Brazil. From Sao Paulo he will proceed to Uruguay and thence to Argentina. Kipling has been in South America since February 13, last.

M-G-M. Leads Assigned

The two leads of the M-G-M production, "The Callahan and the Murphys," have been assigned. They are Sally O'Neill and Lawrence Gray. George Hill will direct the story, which has been adapted by Frances Marion.

Eddie Cantor's New Record

Eddie Cantor is about to hang up a new record. To his record of fifty-three benefit performances in a single year, he is about to add another for the distance traveled in order to appear at a benefit performance.

Cantor will leave Los Angeles Tuesday of the coming week on a transcontinental trip totaling 6414 miles, in order to appear at the Eddie Cantor benefit performance for the boys and girls of the Camp Cold Springs, N. Y.

For eleven years the former Broadway comedian has conducted this annual benefit for the boys and girls of the camp, and this year he is making no exception. His work on "Special Delivery," his introduction in the program for the 1927 benefit a distinct novelty.

Immediately following the benefit performance the comedian will return to the coast for a period of rest before beginning work on his next Paramount production the title of which has not yet been announced.

F.R.O.'s Big League

Programs are being made to make "The Gingham Girl," a David Kirkland production for F.R.O., one of the big pictures of the year, according to information from the local studio. Listed as a Gold Bond Special, an unlimited budget has been obtained, and no expense will be spared to make the Daniel Kussel story into one of the big pictures of 1927. First scenes are scheduled to be filmed early next week.

MONTA BELL WRITES STORY

Norma Shearer in Pretty Cigarette Girl's Romance; Director and Male Lead Sign for "Rolled Stockings;" Universal Will Make Story of Far North

Talk about beauty and virtue coming into their own, that is just what is going to happen to that lovely young girl, Ruby McCoy, who sells cigarettes, at the Mont-Clair in Hollywood.

Monia Bell, O. P. D. writer, has written a story around the cigarette girl, who, though she sells cigarettes, is distinctly a superior person, modest and reserved as any finishing-school mistress could wish. Miss McCoy, not having had much experience in pictures, is not to play the principal role in the film, however, but will probably have a small part. She has played bits in Bell's pictures before, and has several beauty-contest prizes to her credit.

The star of the picture will be Norma Shearer, who is to peddle cigarettes and cigars in a cafe, just as Ruby does. Bell has spun a romance of great charm around the personality of the girl, which Miss Shearer will interpret.

The name of the picture is "Liberty Bonds," and Bell will begin the work of directing it in about two weeks. There isn't to be any heavy in the picture, according to our informant, and the picture is to be a comedy.

Director and Lead Assigned

The suspense is over, and both the director and the male lead in Paramount's story of youth, "Rolled Stockings," have been selected.

James H. Hall, who has just been named to the leading role in the picture, which is to have an Alaska setting, the picture will be made in and around California.

Youngster's Contract Renewed

Renewal of the optional contract with Donald Reed, talented young actor, has just been announced by John McCormick, general manager of the National Pictures.

Pomona Meets Occidental
Tennis Squad in Feature
Court Program

Final matches in the annual conference tennis race for Southern honors are on tap for today, with three dual meets slated. Pomona and Occidental, ancient rivals in all sports, will play a private battle and make up the Southern courts at Claremont, where the U.C. Bruins extend an invading Whittier team, and San Diego travels to Redlands.

Occidental is a heavy favorite over the SoCal racquets, having trimmed the strong U.C. Bruins in midweek. A victory over the Claremont stars gives the Occy Tigers a clear shot to the title of conference champions without a single defeat, but to drop a decision would mean a fight for the title. The Bruins, on the other hand, are the defending champions, having won the title last year. The fact that a title is at stake makes the matches highly interesting. Early today, Pomona and Occidental will meet in the first match. The Bruins and Whittier will play in the second, and San Diego and Redlands in the third.

Pomona Frosh Tracksters in Meet Victory

POMONA COLLEGE (Claremont) March 11. (Recluse)—Strongly by a flock of ex-basketball men, the Pomona frosh track team today won a convincing victory over the Occidental team in the annual conference meet. The Pomona team, coached by Coach Bob Brown, won all five events, including the 100-yard dash, 200-yard dash, 400-yard dash, 800-yard dash, and 1,600-yard dash. The Occidental team, coached by Coach John W. Brown, won the 500-yard dash, 1,000-yard dash, and 2,000-yard dash. The Pomona team's victory was a surprise, as they were considered underdogs.

The summary:

100-yard dash—Won by Bob (P.) 15.2 sec. Occidental (O.) 16.5 sec.
200-yard dash—Won by Bob (P.) 31.5 sec. Occidental (O.) 33.5 sec.

I'm the Gink

I'm the ginkette who enjoys ill-health. I have a new ailment every day and I take great pleasure in describing the symptoms in minute detail. Yesterday I had pains in my heart and today they have shifted to my side. I am really afraid I will have to be operated on. I know my heart won't stand it. I seldom go to doctors. So few of them understand my case. They suggest diets and other foolish things that aren't suited at all to one in my frail condition. My friends detest me and my lils. But they are by far the most absorbing topic of interest that I know. "I have such a headache today. You know, I didn't sleep a wink last night."

MINE STOCK ENTERED ON TRADE LIST

Admission of Gold Bond Securities Announced by Local Exchange

Shares of the Great Bond Mines Company were added to the list of securities of the Los Angeles Stock Exchange yesterday for listing and will be called for trading on Wednesday, the 16th inst., with ticker code GBN, according to a statement made yesterday by H. H. Lee, manager of the exchange.

The Great Bond Mines Company was incorporated under Nevada laws, May 8, 1915, with an authorized capital of 5,000,000 shares of \$1 par value.

At the present time there are approximately 3,400,000 shares outstanding. The stock is non-assessable and its price range on the San Francisco Stock Exchange, where it is also listed, during the period from 1915 to 1926 was from \$1.00 to \$2.00, with a high of \$2.80. The 1926 range was from 2 cents to 36 cents.

Officers and directors of the company are: Jack Shanks, president; Clare Woodwine, vice-president and treasurer; J. E. Turner, engineer; Ben C. Gil, secretary and controller; and D. W. Ward, head office.

Head offices are located at Goldfield, Nev., and Kingman, Ariz. Properties are located in Arizona and Nevada.

The Arizona properties consist of the White Hills group in the Indian Creek district, Mohave county, about fifty-five miles from Kingman, and the Gold Road, Red Top and White Hills groups in the San Francisco mining district, also in Mohave county. Approximately 100,000 ounces of gold have been produced in the White Hills group, while it is stated that the to-day's production of the Gold Road mine has amounted to about \$10,000,000 in gold bullion.

The Nevada property, known as the Diamondfield section of the Goldfield mining district of Mineral county, is located about 10 miles from the property is said to be \$250,000.

T. E. Ivey, Jr., vice-president and cashier of the California Bank, will attend the western regional savings conference to be held at Oakland next week. Mr. Ivey is still more powerfully influenced by the pressure of policy, while the German government also complete control over the short loan market.

OIL SHARES SELL IN LINE

Ratio of Market Price to Earnings Compares Favorably with Industrials; Barnsdall Behind Others

Earnings of oil companies, as reported in the recent annual statements of some of the leading units in the industry, threaten to destroy the popular impression that oil shares are selling behind the rest of the stock market. Relating the earnings to market prices produces a series of ratios that, on the average, compare favorably with the relationship of earnings to market price shown by other groups of stocks.

United States Steel common, at thirteen times earnings, is also above the general average, but not immoderately so. As manufacturing companies, the oils are evidently selling reasonably close to the other industrial corporations, and even, on a comparable basis with the rails. Seventeen rails in the eastern group are selling at about twelve times earnings, or slightly above the average ratio for the six foregoing oil companies. At least one of the oils, the main manufacturing stock of the oil industry does not entitle the shares to the same rating that companies like United States Steel or the rails are given. The manufacturing end of the oil business is not yet sufficiently profitable.

The production of oil, however, is still the chief activity of the industry, and the price of oil is the principal factor governing profits. Speculation, giving less consideration to the success or failure in developing production and to the price of oil, the shares should sell at higher ratios than the industrial oil. The outlook for the oil business is, at present levels for the oil, however, before the recent cuts in crude oil and the appearance of overproduction, the oils were selling at about the same ratio as the other industrial corporations. The answer, probably, is that the speculators are disinclined to concede a price where it will not be manufacturing industry or as a mining enterprise. They prefer to remain noncommittal.

Go To Church Sunday

Why You Should Go To Church

REV. W. REMFERY-HUNT, F.R.G.S.
MISSIONARY EDUCATOR IN CHINA THIRTY YEARS

Spiritual coinage is universal currency. Impressed with intensive studies in humanism in four continents, my time-focus and synthetic analyses of the common man finds him on his highest levels in his ethical life. The divinity within him answers at call.

WE SHOULD BUILD AND SUSTAIN THE CHURCH because serious signals indicate that our civilization is doomed unless we heed the challenge that "knowledge without wisdom" is a travesty; and that "power without restraint" is a tragedy.

History proves an ideal society demands a regenerate man.

The Los Angeles Chamber of Commerce reports a population of 1,250,000 for the city.

A good authority says the Protestant churches of the city have 80,000 members, and all other churches have 70,000.

Where are the over 1,000,000? Will the city follow Greece and Rome in a pagan civilization? Or will it follow the Christian ministry in the heart of this great city. It is the Sabbath home for thousands of strangers and visitors. The coming Lord's Day services are:
